PROFILE INFO

As a fresher web developer, I am excited to bring my strong foundation in computer science and problem-solving skills to a challenging and dynamic work environment. I am eager to learn and grow as a developer, and believe that I have the drive and determination to succeed in this field. I am a quick learner and am always looking for ways to improve my skills.

MY PROJECTS

Portfolio website

It showcases my previous work and experience as a web developer. It includes my resume, a list of projects I have worked on, and a contact form for potential employers or clients to reach out to me

Chat Application

A real-time chat application similar to whatsapp through which one can add friends by user ID and can start a chat. It also includes features such as user authentication and online status indicators.

Decentralize Google Drive Clone

It allows users to store and access their photos on the Ethereum blockchain. It utilizes smart contracts to manage user accounts and file storage, ensuring data integrity and security. The project also integrates with Pinata, a decentralized storage platform, to store the actual files on the blockchain. Overall, it provides a decentralized alternative to traditional cloud storage solutions, leveraging the benefits of blockchain technology.

MY SKILLS & EXPERTISE

• HTML

• CSS

• Javascript

• Figma

• ReactJs

• ExpressJs

• Solidity
